

EC-Type Examination Certificate

(1)

(2)

Equipment or Protective Systems Intended for Use
in Potentially Explosive Atmospheres
(Directive 94/9/EC)

(3) EC-Type Examination Certificate Number:

FTZÚ 14 ATEX 0108X

(4) Equipment: **Gas detector sensing head type EKP-2/P**

(5) Manufacturer: **Z.B.P. "SENSOR GAZ" Andrzej Rejowicz**

(6) Address: **ul. Przemysłowa 55, 43-100 Tychy, Poland**

(7) This equipment or protective system and any of acceptable variation thereto is specified in the schedule to this certificate and the documents therein referred to.

(8) The Physical Technical Testing Institute, notified body number 1026 in accordance with Article 9 of the Council Directive 94/9/EC of 23 March 1994, certifies that this equipment or protective system has been found to comply with the Essential Health and Safety Requirements relating to the design and construction of equipment and protective systems intended for use in potentially explosive atmospheres given in Annex II to the Directive.

The examination and test results are recorded in confidential Report N°:

14/0108 dated 26.02.2015

(9) Compliance with Essential Health and Safety Requirements has been assured by compliance with:

EN 60079-0:2012 EN 60079-1:2007 EN 60079-11:2012

(10) If the sign "X" is placed after the certificate number, it indicates that the equipment or protective system is subject to special conditions for safe use specified in the schedule to this certificate.

(11) This EC-Type Examination Certificate relates only to the design, examination and testing of the specified equipment or protective system in accordance to the Directive 94/9/EC. Further requirements of the Directive apply to the manufacturing process and supply of this equipment or protective system. These are not covered by this certificate.

(12) The marking of the equipment or protective system shall include the following:

 **II 2G Ex d ia IIC T5 Gb**

This EC-Type Examination Certificate is valid till: **26.02.2020**

Responsible person:

Dipl. Ing. Lukáš Martinák
Head of Certification Body

Date of issue: 26.02.2015

Page: 1/3

This certificate is granted subject to the general conditions of the FTZÚ, s.p.
This certificate may only be reproduced in its entirety and without any change, schedule included.

(13)

Schedule

(14) **EC-Type Examination Certificate N° FTZÚ 14 ATEX 0108X**

(15) Description of Equipment or Protective System:

The sensing head of flammable gas detector type EKP-2/P is a device consisting of stainless steel chamber, which contains breathing device of sintered metal. Inside of a chamber is installed a semiconductor sensor with integrated heating element. The connection device of sensing head forms bare conductors (pins) protruding the compound, which closes chamber flameproof enclosure "d".

Nominal parameters:

heating circuit: AC/DC 5.0 V \pm 0.2 V; I_{max} = 56 \pm 5 mA
sensor circuit: DC 5.0 V \pm 0.2 V; P_s \leq 15 mW

Intrinsically safe parameters:

P_i = 0.915 W
U_i = 10 V
L_i \approx 0; C_i \approx 0

Note: Heating circuit and sensor circuit can't be considered as separated circuits in accordance with clause 6.3 EN 60079-11:2012.

Ambient temperature: -20°C \leq T_a \leq +40°C

(16) Report No.: 14/0108

(17) Special conditions for safe use:

- 17.1 The connection facilities of the gas detector sensing head is designed only for connection to the intrinsically safe circuits.
- 17.2 The connection facilities, that forms free surface of insulating compound with connections pins, must be protected by additional cover or enclosure complying requirements for enclosures according to EN 60079-0 with degree of protection IP20 at least. Insulating compound surface must be protected against light.
- 17.3 Performance tests of detectors for flammable gases are not matter of this certificate.

Responsible person:

Dipl. Ing. Lukáš Martinák
Head of Certification Body
